

Blue Telecom Consulting Opens an Office in Sweden to Cover the Nordic Market

Madrid and Stockholm, June 18, 2012

BlueTC is proud to announce the opening of our Swedish office, located in central Stockholm, as of today Monday June 18, 2012.

Sweden and the rest of the Nordic countries constitute an interesting region for BlueTC due to the many business opportunities in the telecommunications sector.

BlueTC has already successfully acquired important customers in Sweden which led the company to establish its Nordic office in Stockholm. The opening of this office will improve our capabilities of serving a wider range of customers and understanding and responding to market needs in a better way.

Tomas Szentei has been appointed Head of Nordic Region with the responsibility of further developing the market.

About BlueTC

BlueTC is a telecommunications consultancy that has specialized in consultancy services that effectively support Telecom Network Equipment Vendors, Network Service Providers and Systems Integrators by providing services throughout the whole telecommunication product life cycle. It contributes to the design, development, customization, verification and integration of telecom products and solutions by actively participating in its customers' activities in the areas of R&D and Professional Services. BlueTC is a privately held company, established in 2005 in Madrid, from where it serves international markets. In 2011 the turnover reached 5.5 million euros. It is an approved local and global service provider for international telecoms infrastructure developers and holds the ISO 9001:2008 Quality Certification.

If you are interested in knowing more about BlueTC's services and in what ways we can collaborate with your organization, please contact our Head of Nordic region:
